

# 2016 GaTA Conference

## Call for Proposals

(50 minute presentations)

## Next Generation Tutoring

The fundamentals of math and science may never change, but people surely do. Each new generation has different and evolving ways of viewing and communicating with the world, which affects how we serve our students. We welcome proposals that address the question:

How can learning centers better serve the next generation of students while positioning them for success?

**Topics may include but are not limited to:**

- Technology
- Social media
- Training / Certifications
- Civic engagement
  - Diversity
- Refugee students
  - Disabilities
- Tutoring methods & modalities
  - Research
- Approaches to subject-specific tutoring
  - Trends
  - Marketing & Branding

**Submit proposals by September 15, 2016 to:**

Nancy McDaniel, Program Chair  
Georgia State University  
nmcDaniel@gsu.edu

*You may copy and paste into the form below, save and e-mail to **Nancy McDaniel**.*

Title of Proposal: \_\_\_\_\_

Session Audience:	<input type="checkbox"/> Coordinators	<input type="checkbox"/> Tutors	<input type="checkbox"/> Coordinators & Tutors
-------------------	---------------------------------------	---------------------------------	--

Name: \_\_\_\_\_
